TRIO.BAS™
BIOLOGICAL AIR SAMPLER
VOL. 04 - ISSUE 04 - MAY 2021

GAZETTE
MICROBIAL ENVIRONMENTAL

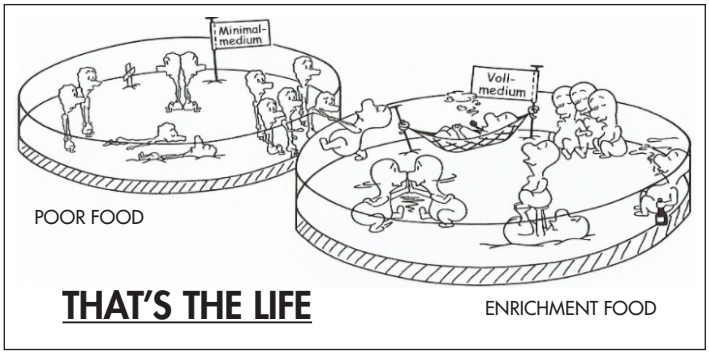

USE OF "DAILY SHIFT" HEAD SOP

GLP (Good Laboratory Practice), GSP (Good Sterilization Pratice), GAP (Good Aseptic Pratice), "GAMP" (Good Air-Monitoring Practice) request that all the material used for the microbiological monitoring of the environment is sterile and the inspector authorities ask to document the sterilization compliance. Such notes request a written certification on what you are doing. The "Daily Shift" aspirating head of TRIO.BAS microbial air samplers includes a certification of sterilization by gamma irradiation.
